OUR STORY

Two Sisters. One Dream. Endless Reasons to Celebrate.

Aura Gourmet was born in Miami from the dream of two Colombian sisters who decided to turn their creativity and love for food into something of their own.

We have always believed that much more happens around a table than sharing a meal. Achievements are celebrated, bonds grow stronger, feelings are expressed, and memories are made that last long after the last bite.

Charcuterie became our way of bringing that idea to life: a blend of colors, flavors and textures that lets us create unique experiences, designed for each person and each occasion.

LAURA & GERALDINE, FOUNDERS

Miami's cultural diversity inspires us, too. Its traditions, ingredients and flavors invite us to explore new combinations and to celebrate the differences that make every gathering special.

For us, no two boards are ever exactly alike, because behind every order there is a story, an intention, and someone we want to make feel special.

That is how Aura Gourmet was born: from the creativity of two sisters, and the certainty that sharing is also a way of loving.

OUR MISSION

Love and intention in every bite.

To create food experiences that convey care, dedication and joy, looking after every ingredient, every detail and every presentation.

We want every bite to carry the love of the person who makes it, the intention of the person who gives it, and the happiness of those who share it.

OUR VISION

Making everyday moments extraordinary.

To make Aura Gourmet a leading name in charcuterie and food experiences in Miami, recognized for our creativity, quality and warmth.

We aspire to bring an accessible premium experience to every kind of occasion: from weddings, birthdays and corporate events to a quiet afternoon at home, a conversation between sisters, or a small gesture for someone special.

Because we believe you don't need a big celebration to create an unforgettable moment.
